

The Magic Depot presents...

# Key Lock Chest with Leather Working Surface!

**Remember nice things?** I sure do! When I was a kid, everything looked expensive. Quality materials carefully constructed by years of experience. Hard to find now days, even if you're willing to spend a few extra bucks.

But magicians deserve nice things at a good price! So I consulted with my father about lending his expertise to the magic industry. He's a craftsman and the source of my nostalgic views. **The result is this hardwood closeup case, featuring a genuine leather working surface.** It's this year's holiday must have!

**The \$400 Closeup Pad for \$200!** Nice things are expensive, but they don't have to be overpriced. We buy parts in bulk, and then work with each piece custom. The Chests are individually unique. Built only from hardwoods such as Ash, Birch, Cherry, Elm, Maple, and Oak.

**Memory Foam Inside!** Inside the Chest, you'll find visco-elastic polyurethane. Better known as Memory Foam. Lay your cards and coins on the foam and close the lid to hold everything firmly in place. Memory Foam is the most versatile way to store items of varying sizes. Removable and sink washable!

**Brass Hinges and Custom Key Lock!** Hinge design may be a personal choice, but metal types are structurally significant. Dad only uses solid brass or steel, free of paint or plating. With matching lock and two keys!

## Leather Working Surface Soft to the Touch!

Products like this are a sourcing adventure! Going direct to the tannery, I was able to inspect and personally select each hide. Finished with pigskin, the surface is durable leather soft to the touch. The perfect material for card and coin workers. Cups and Balls stand dignified! **Only \$199.95 at [www.magic.org](http://www.magic.org)!**

**PLUS My Money-Back Guarantee!** "If you purchase something from me and don't like it for any reason, please return it within thirty days for a store credit or refund. Sales aren't final, but rather the start of something magical!" - Aaron Smith
